Tim? *What's Tim's info?*

Whitney Miller, Master Gardener

Tom Vitale, GTCD/Parklands Steward

Kristen Grote, GTCD/GTSI

Elise Carolan, MSU Extension

1. Where does the **structural design** stand?
  - a. Building designs (calculations, roof framing, etc)
    - i. NMC needs design plans and a list of materials
    - ii. **Nate will find someone**, perhaps Ray from NMC
2. When and where will the structure be built? On-site or pre-fabricated?
  - a. Materials will be delivered to the BRNC
  - b. Students will build the structure on-site
  - c. **NMC needs a material list, they will be covering the cost of the building materials!!!**
3. Does the structure need to be in place before the **slab**? If so, what is the logistical plan?
  - a. Monolithic slab
  - b. Do the slab a couple days to a couple weeks before hand
4. Where does the fund raising efforts stand? What is needed?
  - a. Whitney made a funding doc for all to add info to
  - b. Kristen has been in touch with the State Theater and Liz from FLOW
5. Does the concrete donation include the labor required to pour the slab? How about the delivery costs?
  - a. Whitney does not believe there will be a delivery fee
  - b. **Whitney will check on the total cost**

6. Has an installation date been considered? If so, will this be a workshop or MG event? If so, how will this work and who will be in charge of planning?
  - a. NMC will get the structural component up by end of September
  - b. Nate will get plants in October
  
7. All seem to agree that Porous Pave is a good idea. Where will this demonstration be located?
  
8. Educational posters
  - a. Pat Ivory - Did the signs in the commons
  - b. **Kristen/Tom - Will figure out what educational signage has been used at the GTCD in the past**
